CCAA Members

CCAA is funded by its members which include Australia's leading cement, concrete and aggregate suppliers. In fact, CCAA's members account for over 90% of the industry's output. CCAA's constitution makes provision for three types of membership - Foundation, Ordinary and Associate.

Foundation Members
Companies that originally formed CCAA and provide much of its funding.

Ordinary Members
Companies engaged in the manufacture or supply of cement, concrete or extractive products. Currently CCAA has over 60 Ordinary Members.

Associate Members
Conduct a business that is directly related to the manufacture and supply of cement, concrete and extractive products - for example, suppliers of plant and equipment, concrete admixtures and supplementary materials.
