BOARD OF DIRECTORS

The Board of Directors, made up of leaders from the world of the food industry, aims to set the strategic orientations of ANIA.

The Executive Committee, a team close to the President, assists the President of ANIA in the preparation of questions to be submitted to the Board of Directors (which meets every two months) and in the execution of its decisions.

“During the crisis we have experienced, the agri-food industry fully played its role. No product was lacking in the diet of our fellow citizens thanks to the exceptional mobilization capacity of all our stakeholders. ANIA has fully focused on this objective. At the end of this crisis - an exit that we now hope to be close, it will be necessary collectively to mobilize our companies, but also all the stakeholders on a priority objective, to restore to better develop the attractiveness of the food.
industry in France. It represents a major asset, a nugget of the “Maison” France. We can and should value it more."  

Jean-Philippe André, president of ANIA
