Considering the increasing need of reliable information on upstream emissions.

**Comment**
The declared 8% corresponds to the number of suppliers from the total pool of Gas Suppliers, but represent 52% of the purchased gas volumes.

C12.3b

(C12.3b) Are you on the board of any trade associations or do you provide funding beyond membership?
Yes

C12.3c

(C12.3c) Enter the details of those trade associations that are likely to take a position on climate change legislation.

**Trade association**
EFET

**Is your position on climate change consistent with theirs?**
Consistent
How have you influenced, or are you attempting to influence their position?
Directly as regular member

Trade association
BDI

Is your position on climate change consistent with theirs?
Consistent

Please explain the trade association’s position
Acknowledge the 2°C limit and set an EU Climate Change target for 2030. Support German Energy Transition.

How have you influenced, or are you attempting to influence their position?
Indirect through an association.

Trade association
CO2 Value Europe

Is your position on climate change consistent with theirs?
Consistent

Please explain the trade association’s position
Development of CCU processes

How have you influenced, or are you attempting to influence their position?
Directly, own professional is president of the board

Trade association
IETA

Is your position on climate change consistent with theirs?
Consistent

Please explain the trade association’s position
Build international policy and market frameworks for reducing greenhouse gases at lowest cost.

How have you influenced, or are you attempting to influence their position?
Regular Member

Trade association
Working Group Emission Trading at BMU

Is your position on climate change consistent with theirs?
Consistent

Please explain the trade association’s position
How have you influenced, or are you attempting to influence their position?
Directly as regular member

C12.3d

(C12.3d) Do you publicly disclose a list of all research organizations that you fund?
Yes

C12.3e

(C12.3e) Provide details of the other engagement activities that you undertake.

Uniper’s memberships shows key associations and initiatives that may be directly or indirectly related to our material sustainability topics, including climate change. The membership of these associations and initiatives can be highly diverse, and it is not always possible to assign them unequivocally to individual sustainability topics. Nevertheless, these memberships are fundamentally relevant to our sustainability efforts.

Uniper’s memberships in key associations and initiatives in 2020 were following:

Gas/Gas Storage

Global

- International Gas Union (IGU): Worldwide non-profit association advocating gas as an integral part of a sustainable global energy system and to promote the political, technical and economic progress of the gas industry. Voluntary membership.

- Oil and Gas Methane Partnership - In 2020, Uniper became a member of the Oil and Gas Methane Partnership (OGMP) 2.0, a voluntary initiative launched by the United Nations
