**Board**

The board of the federal association consists of the president and the vice-presidents as well as the chairmen of the member associations or, in their place, another member of the board of their association who is permanently commissioned by them.

The Executive Board is responsible for all matters relating to the Federal Association, insofar as they are not reserved for other bodies by statutory provisions or the Articles of Association. In particular, it decides on the guidelines for the work of the BDI. He has the right to have the bodies of the BDI process tasks that he deems essential and can set up permanent and non-permanent committees for certain tasks and regulate their composition.

The board of directors must ensure that the work of the committees is in line with the general goals of the BDI and, in doing so, must take into account the cooperation with other umbrella organizations of entrepreneurship. The Executive Board elects 15 members of the Executive Committee from among its members or only in exceptional cases and only with the consent of the chairman of a member association of the Federal Association – from among the companies belonging to this association – 6 of them from among the member associations who were in the Executive Committee in the past term of office were not represented. Insofar as the elected members belong to the Executive Board, they do not leave it through the election.

**President (2021/2022)**
At the end of November 2020, Siegfried Russwurm was elected President of the BDI by the General Assembly of the BDI without a dissenting vote. He took up his term of office at the beginning of 2021.

Vice Presidents (2020/2021)
Professor Thomas Bauer
Chairman of the Board of Directors
BAUER Aktiengesellschaft, Member of the Executive Committee of the Construction Industry Association
